Our Reference: CASE28349 / Quote#Q26393

Date of Issue: 22/06/2026
Date of Expiry: 21/07/2026

Dear Alex,

Thank you for the opportunity to provide the following quotation for the property located at:

13 Butlers Road
Ferntree Gully VIC 3156
Australia.

FLOATING FLOOR (98% of our jobs can be installed within 5 working days)

Supply and install new floating floor to the Lounge

This includes:

- Take up and disposal of the existing floor coverings
- Supply of Standard underlay for House/Townhouse.
- Fitting of trims where required
- Movement of large furniture items.
- Supply & installation of scotia around all existing skirtings & kick boards
- Removal of all rubbish from site
- Vacuuming of the area when complete

This quote is based on the following alternatives:

Floating Floor Range	Floating Floor Description	Price inc GST
Forestbrook	Laminate, 5 colours available 1500mm x 196mm x 8mm	$2,440.00
Summerhill	Hybrid Planks,10 colours available - Surface Finishing: Light Embossing 1220mm x 180mm x 6mm	$2,510.00
Riviera Oak	Engineered Oak, 10 colours available; brushed finish - 1900mmx190mmx14mm	$4,140.00
Australian Species	Engineered timber, available in Spotted Gum and Blackbutt; 1900mm x190mm x 14mm	$4,920.00

Floating Floor Exclusions:

- All small, breakable and personal items, including items from drawers, bookshelves & wardrobe, must be moved prior to the arrival of our installers.

Floor Preparation:

- All floating floors must be installed on a suitably level subfloor to ensure proper performance, appearance and adherence to product and installation warranty. This can only be determined by our specialist installer on the day of installation.
- If minor levelling is required, which is typical in most installations, the cost will be calculated at $46.00 (incl GST) per square metre. You will only be charged for the specific areas that require levelling.
- If more extensive levelling is required beyond this, we will contact you on the day on installation to discuss any additional charges before proceeding.

Minor Floor Levelling:	Charge if 20 square metres levelled	$990.00

Please note:

1) The quoted price above assumes that the take up of existing floor covering, any additional floor preparation (if required) and installation will be completed within one to two days. Additional charges will apply if you would like take up completed at an earlier time to the rest of the works. Please let us know prior to the date of installation and we will advise of the additional charges accordingly.

2) Expansion gaps - This quote is based upon expansion gaps being covered by scotia. If you prefer expansion gaps covered by skirting / kick boards, please let us know prior to the date of installation. Removing and installing skirting / kick boards is not a service Investa Projects provides, so these would need to be removed prior to the commencement of these works and reinstalled upon completion of our works.

3) Skirting / kick boards, door jambs and / or doors - Although this quote is based on scotia covering expansion gaps, in rare cases (e.g due to a difference in height between the new and old flooring) it may become apparent on the day of installation that the height of skirting / kick boards, door jambs and / or doors will need to change. Please note that from time to time, the difference between height of existing flooring and new flooring will create impacts such as gaps between the new floor and the skirting boards/door jambs/architraves. Where this arises, it is the responsibility of the client to address the impacts of these differing floor heights.

4) In the event that an installation is obstructed by a door or any other objects such as door tracks, our installers will take the necessary steps to remove objects in order to complete the job. We will make every effort to re-install the objects afterwards, but if this is not feasible due to specific equipment required to re installs objects, it will be the client's responsibility to make alternative arrangements.

5) Investa Projects Victoria will vacuum after our works and take all reasonable care to leave the areas where we have worked in a neat and tidy state. Should you wish to have the property professionally cleaned, we recommend booking this in after the completion of our works.

6) When approving a job, we do require your choice of floating floor range and colour to proceed. There will be some variations in colour and texture between physical samples, electronic samples and the actual product due to lighting conditions, different dates of production and natural dye lot variation.

7) Timber is a natural material and variations in colour, texture, knots, grains and other naturally occurring features will occur between physical samples, electronic samples and the actual product.

8) It is not possible for an estimator to accurately determine the thickness of your existing flooring during the quoting stage. This can only be assessed once our installer is on site. The height of your new flooring, as quoted, may differ from your existing flooring. If your existing flooring is adjacent to other flooring surfaces, this may result in a height variation between the two areas. In such cases, transition trims will be installed to provide a smooth and safe transition. If you prefer to avoid the use of transition trims and would like the new flooring to better match the height of adjacent surfaces, a thicker product may be required. Please be aware that this may involve additional costs, which will be the responsibility of the owner. By approving this quote, you acknowledge and accept that transition trims will be used where required.

9) Please note that while our installers are not professional furniture dismantlers, they will make reasonable efforts to assist in removing the bed from the room where installation is required, provided the tenant is unable to do so. However, reassembly of the bed is not included in our scope of works and remains the responsibility of the client. If the bed frame requires specialised or uncommon tools that prevent our team from proceeding with the installation, a return call-out fee of $220 incl GST may apply. Our team will not be held liable for any damage that may occur during the dismantling process. If you prefer that we do not dismantle the bed, it is the tenant's responsibility to ensure it is dismantled prior to our arrival

10) Power will need to be connected for works to be carried out.

11) If there is stove, dishwasher, washing machine, dryer, toilet and/or any other fixed furniture items in the area where new flooring is to be installed, it must be removed prior to Investa Projects attending. This has not been quoted for and is not a service that we provide.

12) In the process of removing flooring there may be some chips to paint work, skirting boards and kitchen kick-boards around the flooring area. All caution is taken, but paint and surrounding areas can be scratched accidentally. All paint touch ups and repairs are the responsibility of the client.

13) If our installer arrives on-site on the booked date and they cannot proceed with their installation for reasons outside Investa Project's control (for example because other trades have not finished, power is not on, agreed access does not work) a minimum call out fee of $440 (incl GST) may be charged due to loss of a day's work for one or more installers. For properties more than 30 kms from Melbourne CBD, a minimum call out fee of $440 (incl GST) plus a travel charge of $3.60 per kilometre over the 30 kms from Melbourne CBD will be charged.

14) If an approved job cannot be installed within 60 days due to delays on the owner/customer's end, the order amount is subject to change to consider any increases in our standard price list.

15) If a request is received to place a job on hold after we have placed the order for the product, we will issue a 50% invoice to cover cost of the

flooring and storage fee that will be due upon receipt.

16) Investa Projects Victoria will not be held responsible for any damages that occur to the stock stored in our warehouse for a period exceeding 60 days, which are beyond our control. Additionally to this Investa Projects have no control over the manufacturing of the product, which means that we cannot be held liable if additional product is required due to unforeseen reasons, and it is out of stock or discontinued during installation. This may result in having to choose a different product at an additional cost.

17) Any defects, issues or concerns with the completed works must be reported within 10 days of being identified. If the customer fails to notify Investa within 10 days of identification, Investa reserves the rights to refuse repairs and warranty may be void. As failure to notify in respective time frame, may have caused further damage or problems.

18) The disconnection and reconnection of electrical appliances, such as TVs, sound systems, and recliner chairs, are not within the scope of our services. Should these objects obstruct the installation areas, it is the client's responsibility to arrange for the disconnection and reconnection both before and after the installation.

19) If any unforeseen damages to the property are identified upon the completion of the works, Investa Projects should be given 5-10 days to rectify the issue. Investa Projects will not be responsible for any unauthorised costs incurred by the client for addressing these issues independently before this time frame.

20) Please advise of your preferred installation date at the time of approval. If a date is provided, the team will do their best to confirm it with you as soon as possible. If no date is nominated, the team will offer the earliest available option within our standard turnaround times. Please note: if a 50% deposit is required, stock can only be ordered once the deposit has been received. This may result in a delay to the installation date.

Floating Floor Stock Notes

You can view our range of floating floor products on our website at:
https://investaprojects.com/flooring/

This quotation is valid for 45 days from the date of issue. Any approvals after this date may be subject to requote. Please note that if an approved job cannot be installed within 60 days of approval due to delays on the owner/client’s end, the order amount is subject to change to take into account any increases in our standard price list.

By accepting this quote, you will be accepting the Investa Projects Victoria’s Payment Terms and Conditions outlined in the attached.

If you have any questions or concerns regarding this quote, please do not hesitate to get in touch with us.
